

In retrospect, what could you have done better to reduce the time you spent solving this homework?

I could have read the professorParser function more carefully. If I had, I would have understood the correct order of strings and not implemented an incorrect implementation to make a graph.

What could we, the teaching staff, have done better to improve your learning experience in this homework?

I think explaining the more complex intricacies and implications of edges between professors could have helped.

What do you know now that you did not know before beginning the homework?

I now fully understand what a static class method is and how to correctly utilize it.
